## OUR GOALS

Pilgrim's sustainability program is founded on three pillars:

- Economic Viability
- Social Responsibility
- Environmental Stewardship

We are committed to responsibly meeting our needs today, while constantly improving our processes to exceed those goals in the future.

In 2015, we set measurable goals for 2020. We are proud to report our progress as of 2018 towards those goals:

## 2020 GOALS

Decrease natural gas use intensity\* by 14%

Decrease electricity use intensity\* by 12%

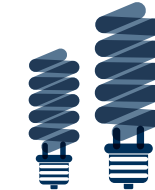

Decrease electricity use intensity\* by 12%

## OUR PROGRESS

2018 NATURAL GAS USE INTENSITY

13%

2018 ELECTRICITY USE INTENSITY

11%

2018 GREENHOUSE GAS (GHG) EMISSION INTENSITY

20%

\* Intensity: sustainability reporting uses the metric intensity to measure the efficiency of resource use instead of relative values.

## OUR FAMILY FARM PARTNERS

Our business can only be successful if our family farms partners succeed and are fairly compensated for their work. We value our relationships with our family farm partners and work in partnership to raise chickens with improved health, welfare, performance, and efficiency.

For more information on our sustainability goals and progress, please visit [pilgrims.com/sustainability](http://pilgrims.com/sustainability).
